Regular Meeting Agenda Board of Commissioners

Tues, May 4, 2021 5:00 PM zoom

To join online go to:<u>https://zoom.us/my/jeffcopud</u>. Follow the instructions to login. Meetings will open 5 minutes before they begin. TOLL FREE CALL IN #: 833-548-0282, Meeting ID# 4359992575#. Use *6 to mute or unmute. *9 to raise a hand to request to begin speaking.

Page

1. Call to Order

Per the Governor's Extended Proclamation 20-28 and in response to the COVID-19 Pandemic, Jefferson County PUD is no longer providing an in-person room for meetings of the BOC. All meetings will be held remotely via Zoom until otherwise informed by the Governor. Participant audio will be muted upon entry. Please unmute at the appropriate time to speak. If you are calling in, use *6 to mute and unmute and *9 to raise a hand to request to speak.

2. Agenda Review

3. Public Comment

The public comment period is for any items not specifically listed on the current Agenda or for items listed on the Consent Agenda. The Chair may place time limits on public comments to allow the meeting to be conducted in an efficient and orderly manner. **(15 min)**

4. Consent Agenda

All matters listed below on the Consent Agenda are considered under one motion and will be enacted by one motion. There will be no separate discussion on those items. If discussion is desired, that item will be removed from the Consent Agenda and will be considered separately.

4.1. Prior Minutes

DATE:	May 4, 2021
TO:	Board of Commissioners
FROM:	Samantha Harper, P.E., Engineering Director
RE: RECOMMENDATION:	On-site Septic Discussion Discussion Only

SUMMARY: Staff would like to discuss with the Board of Commissioners the PUD owned Community On-site Septic Systems (OSS) and what services comprise the monthly wastewater fee.

BACKGROUND: At a BOC Special Meeting on July 28, 2020, staff gave a presentation on PUD management types; locations of the PUD's Community OSS, jurisdiction of the Community OSS (state or local) and number of wastewater customers.

During the rate hearing on April 6th, questions were asked of staff regarding the increase of the wastewater rates. The summary of questions were what services does the monthly wastewater fee include; what are the reserve accounts for; and PUD services the same for all the Community OSS.

The PUD owns thirteen Community OSS; provides operations and maintenance to two Community OSS; and provides services to one Community OSS. The systems are a combination of Washington State Department of Health regulated (design flows between 3,500 gpd – 100,000 gpd) and Jefferson County Environmental Public Health regulated (design flows up to 3, 499 gpd). The PUD has approximately 357 wastewater customers.

Of the 13 Community OSS, the services provided are not the same. There are two groups:

1. Kala Point and Beckett Point; and

2. All other community septic systems.

The first group, Kala Point and Beckett Point, the PUD is responsible from the building envelop (exterior wall of the dwelling unit) to the drainfield. The second group the PUD is responsible from the on-site septic tank effluent to the drainfield.

The tasks within the wastewater fees include, but are not limited to: monthly inspections, annual inspections; bi-annual mowing of drainfields; maintenance and or repair of access roads; replacement of lids and risers (Group 1); pumping of on-site individual septic tanks (Group 1); repair and replacement of grinder pumps (Group 1); maintenance of pump stations; control panels and piping, as needed; and reporting to Jefferson County public health through a third party reporting software (Kala Point only).

 Ph (360) 385-5800
 Fx (360) 385-5945
 310 Four Corners Road, Port Townsend, WA 98368

 Public Utility District No. 1 of Jefferson County is an Equal Opportunity Provider Employer

The reserve accounts are set up through the County Treasurer's office. There is not a reserve account for every Community OSS. The reserve funds are for catastrophic failure of the Community OSS, mostly for the drainfields. If a major failure happens, then the PUD would need to obtain approval from the Jefferson County Environmental Health Department prior to the release of reserve funds.

ANALYSIS/FINDINGS: None

FISCAL IMPACT: None

RECOMMENDATION: Discussion only

Attachments: 1. Community On-site Septic Presentation

Large On-site Septic Systems

BOC Special Meeting July 28, 2020 <u>Presented by: Samantha Harper, P.E.</u>

Public Utility Distric

Septic Terms

- "Large on-site septic system (LOSS)" has design flows between 3,500 gallons per day (gpd) – 100,000 gpd (DOH definition)
- "Community on-site septic system (OSS)" serves two or more independent standalone dwelling units with design flows up to 3,500 gpd (County Code 8.15)
- A bedroom design flow is 120 gpd

3 Types of PUD Management

- Ownership
- Operation, Maintenance (O&M) and Inspection
- Service

PUD Management - Ownership

• RCW 54.16.230

Allows PUD to acquire, construct, operate, maintain and add to sewage systems

lefferson Count

Public Utility Distric

PUD Management – O&M and Inspection

- RCW 54.16.310
 Allows PUD to perform O&M and charge for the service
 - County Health Board Resolution May 25, 1993 Authorizes the PUD to perform O&M and inspections
 - County Code Section 8.15 Management of community on-site sewage systems shall be by an entity approved by JCPH.

Page 42 of 116

Public Utility Dist

2 Categories of PUD Large Onsite Septic Systems (LOSS)

- Jefferson County Environmental Public Health (JCEPH) Approve systems with design flows up to 3,499 gpd
- Department of Health (DOH) Approve systems with design flows between 3,500 gpd – 100,000 gpd

Service Agreement

Septic Definitions

- Effluent outflowing of the water from tank
- Septic Tank Usually on customers property and connects to the septic piping which flows (by gravity or pumps) to the community drainfield.

PUD Responsibility - Kala Point and Beckett

Monthly fee includes:

- Replacement of lids and risers, as needed.
- Pump on-site septic tanks, as needed.
- Fill reports with county and pay for a thirdparty report company, Kala Point
- Maintain roads to drainfields and pump facilities.
- Annual inspections.
- Monthly monitoring of system.
- Bi-Annual mowing of drainfield(s)
- Replacement or repair of grinder pumps as needed.
- Any other state and local permitting or regulation requirements
- Any other state and local permitting or regulation requirements

PUD Responsibility – All other PUD systems

Monthly fee includes:

- Maintain roads to drainfields and pump facilities.
- Annual inspections.
- Monthly monitoring of system.
- Bi-Annual mowing of drainfield(s).
- Any other state and local permitting or regulation requirements

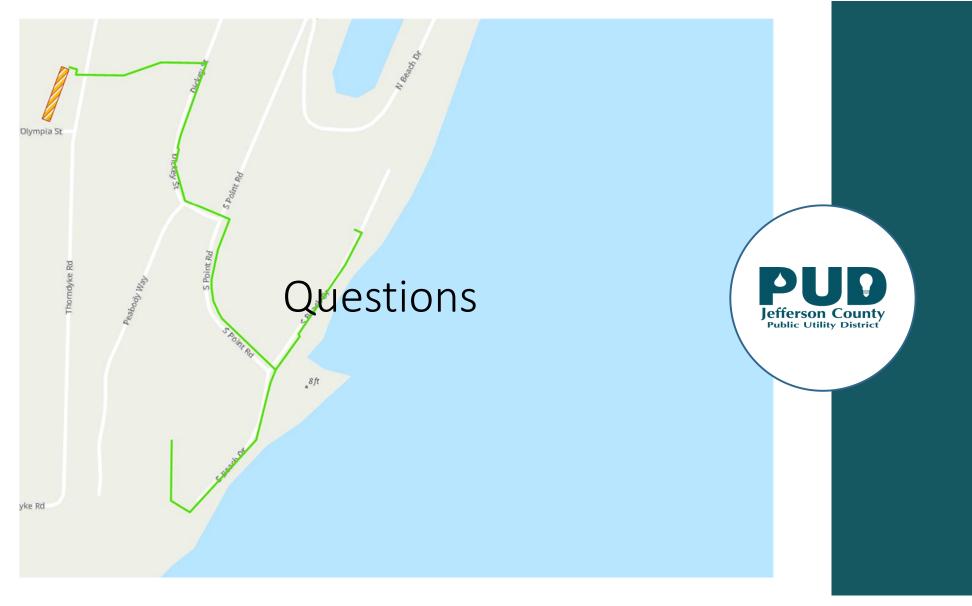

Please note: Septic systems vary. Diagram is not to scale

Septic Reserve Accounts

- The reserve accounts are set up for catastrophic failure of the community septic system, usually the drainfield.
- There are held by the County Treasurer's office.
- Once failure fixed, the money is eligible to be released to the PUD with approval by Jefferson County Environmental Health.
- Not every community on-site system has a reserve account,

AGENDA REPORT

DATE: May 4, 2021
TO: Jefferson County PUD, Board of Commissioners
FROM: Jean Hall, Services Director
RE: Rate Increase Impact Comparison for Low-Income Rate Class

RECCOMENDATION: No action required, For information only.

Summary: Continued dialog regarding the effects of multiple rate models on the low-income rate class billed revenue.

Background: During discussions about the current rate study there has been some debate as to the rate model that the Board of Commissioners should adopt. The initial study places the emphasis of the rate increase on the base fee. This will allow for steady revenue that is not dependent upon consumption levels.

The other rate model being considered keeps the base fee at its current amount of \$18.50 and places the increase on the consumption rates. This will promote conservation but raised concerns about the effect of this type of increase on low-income program participants.

Both models include introducing a third usage tier rate to further the efforts to promote conservation.

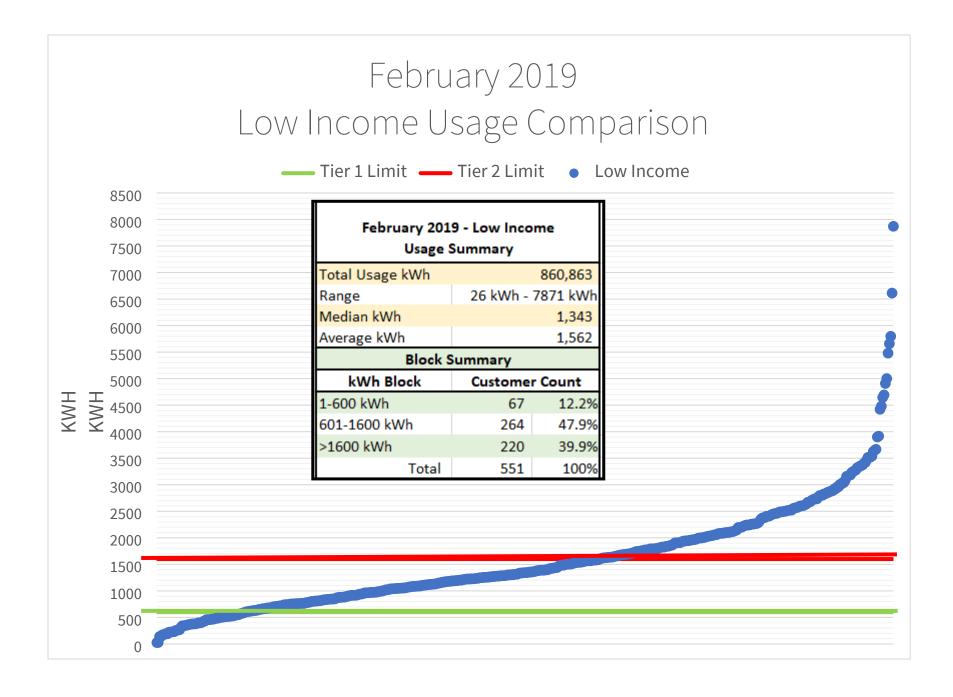

Findings/Conclusion: The attached report looks a little closer at the usage trends of both standard residential consumers and those who participate in the low-income programs. In the model that places the bulk of the increase on the base fee, there would be minimal impact to low-income customers as the flat rate discount is geared to that type of rate structure.

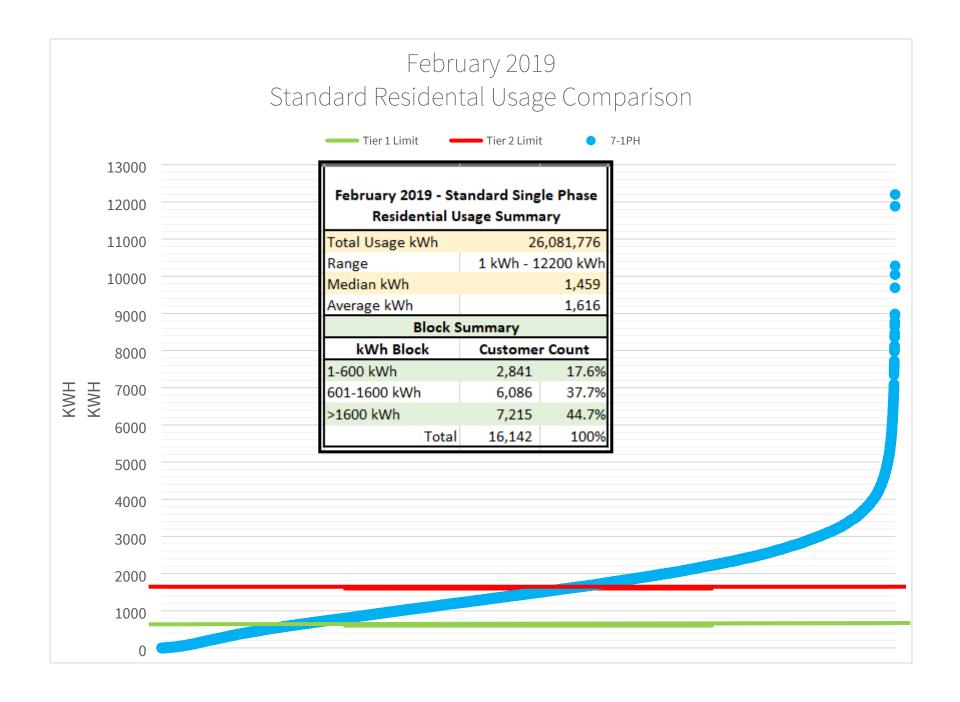

If the PUD chooses to use a rate structure that is geared towards increased consumption rates, all customers whose usage falls into the higher tier would be significantly impacted. In order to reduce that impact on low-income customers, the PUD would need to look at changing the low-income subsidy model.

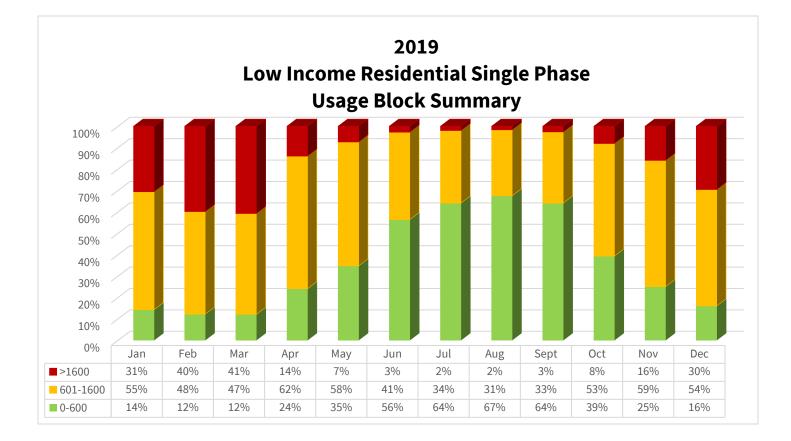

The data used for these comparisons was gathered from 2019 usage reports, as February of that year has the highest average usage over the past two years for both the low-income and standard residential single-phase rates. This approach was taken as we are looking for the severity of the potential impact from rate increases. Please note the difference in the range of consumption between the two rate classes.

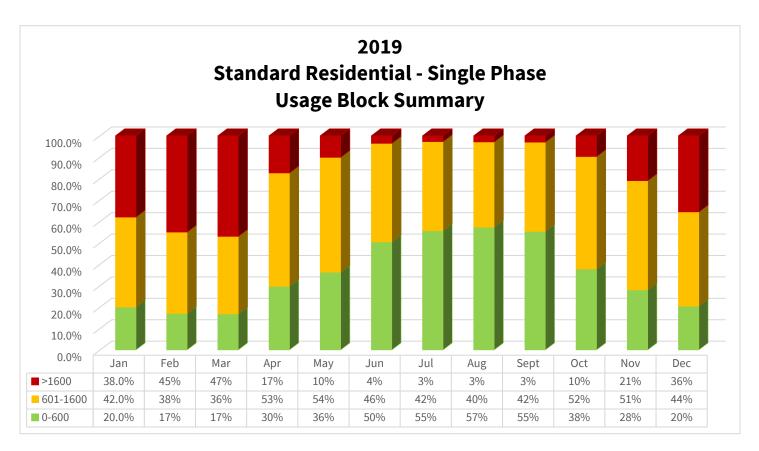

The kWh usage blocks in the following charts and graphs will show the number and percentage of customers that will fall into the three usage tiers that have been proposed in the preceding rate discussions.

As stated above, February 2019 has the highest average usage for both rate classes over the past two years. We will now start to look at a side-by-side comparison of the two rates classes, and the billed revenue which includes consumption and base fees only at today's current rates.

Revenue Comparisons Based on FCS Proposed Increases.

For this comparison we have kept the Low-Income discount increase from the original proposal from FCS which was tied to the base fee. We could look at other options for the discount, be it a different scale or even a percentage discount on the consumption rate.

The following three proposals are alternative rate options given to us by FCS. The comparisons below apply the rate proposals to the usage that we saw in February 2019. This will give us a better insight to the potential impact of each of the rate increase options.

In the first comparison we will look at the effects of the bulk of the increase being applied to the base fee, with a small increase to the existing tier rates, and the addition of a third tier.

The second comparison keeps the base fee the same as it is now with the rate increases being applied only to consumption rates and introducing a third consumption tier.

The third comparison is like the second, in that the base fee remains at \$18.50 and there is the introduction of the third consumption tier. However, the bulk of the consumption rate increase is placed on the second, rather than the third tier.

		Current	2021	2022	2023	2024

	Standard Rate - Maximum Usage	12,200	1,469.50	1,595.78	1,662.64	1,731.84	

In Summary

Low-income program participants who remain in the average usage range would experience minimal impact with the change from a base fee increase to a consumption rate increase in either of the above scenarios. However, those customer owners who fall into that upper 40% of consumption (the greater than 1600 kWh block) could experience a more than \$150.00 increase from the model which places the bulk of the rate increase on the third tier.

BUDGETARY CONSIDERATIONS

Whether the Board of Commissioners decide to stay with a flat rate discount or look at other options, this magnitude of subsidy increase will require significant budgetary considerations. Since 2019, program participation has grown more than 33%. At the beginning of 2019, there were 547 customers receiving a discount on their electric bill, there are currently 731. The economic effects of the COVID 19 pandemic have no doubt played a part in that growth and make it difficult to predict future growth in participation.

AGENDA REPORT

DATE:	May 4, 2021
то:	Board of Commissioners
FROM:	Scott Bancroft, Operations Director
RE: RECOMMENDATION:	Timber Sale Motion to move forward

SUMMARY: Staff and the Board of Commissioners will review the information presented to the board in past meeting and look at broadband expansion

BACKGROUND: The PUD owns a 210.52-acre parcel of property county parcel 801061004. The property is located at the end of Peterson Road off Eaglemount Road. Stand #63 of the forest harvest plan is a mature mixed stand of Red Cedar and Douglas Fir, with a component of sparsely scattered big Leaf Maple, Western Hemlock and Red Alder. The PUD plans to begin harvesting timber from this property.

This is not a uniformly stocked stand. It contains areas of many trees and sparce, low stocked areas. Stand #63 is 12.5 acres. Based on the 12.5 acres and after taking deductions for visible defect, expected hidden defect and expected falling damage during the logging operations the total board foot volume for the stand came to 515,436 or 42,953bf/acre.

The PUD sent the bid for the timber sale to nine logging contractors. One local logging contractor Nisbet Timber Inc. returned a bid offer. The offer is 55% to PUD 45% to Nisbet Timber Inc.

FISCAL IMPACT: The logging operations will provide added funds to the PUD.

RECOMMENDATION: Accept the offer from the logging contractor of a 55%-45% split. Staff humbly requests a motion to move forward with this project.

Thank you.

AGENDA REPORT

то:	Board of Commissioners
FROM:	Kevin Streett General Manager
RE:	Broadband Review
RECOMMENDATION:	Discussion

SUMMARY: Staff and the Board of Commissioners will review the information presented to the board in past meeting and look at broadband expansion

BACKGROUND: The PUD has been involved with broadband and fiber since 2012. In that time the PUD has grown to a point where we need to decide if the community need means we should become and ISP or continue as we have by building out in a one or two customers every quarter. There may be a middle point but that might cause as many problems as it helps. Grant funding are a key to move forward.

ANALYSIS/FINDINGS: The community needs to have better broadband. Staff believes the PUD should take the lead to increase access.

FISCAL IMPACT: \$200,000 from tax funds to cover engineering and grant funding writing and applications. The use of tax funds for broadband was approved in the 2021 budget.

RECOMMENDATION: Discussion and give direction to pursue grant funding, this would include engineering work, grant writing, application preparation, and researching all funding opportunities.

Attachments: Board presentation 4/26/21, Draft Policy Manual, Rate Schedule, Generic Tasks

Implementation Major Tasks New Retail ISP

The following is a description of the high-level groups of tasks that must be undertaken by a newly formed retail ISP. Some of the tasks below can also have a significant number of subtasks.

Raise the Funding. In your case this means winning the needed grant funding.

<u>Define the Construction Process</u>. Will the project be turnkey with a design/builder that designs and builds the network? Will there be separate engineers, contractors, and inspectors?

<u>Identify the Project Team</u>. This is likely to be a combination of existing staff, staff yet to be hired, consultants, external engineers, construction vendor(s), material vendors, etc. If some of the external team members haven't already been identified, this step might include issuing RFPs or otherwise interviewing candidates.

<u>Choose Technology</u>. If that hasn't already been done, an early step is to finalize the choice of technology, which is often followed by identifying the preferred vendors of technology. To the extent that technology cost is an issue, this process might also include getting bids from vendors as a way to make the needed choice.

<u>Preliminary Network Design</u>. While many projects are initially launched based upon high level feasibility engineering, an early step for many projects is to undertake more detailed engineering sufficient enough to receive competitive bids for construction or to begin ordering construction materials.

<u>Organizational Readiness</u>. Organization readiness means getting the business structure in place. It means obtaining business licenses, logos, web sites, the basics. One of the most challenging tasks for a new ISP is to define the public name of the retail business that will be marketed.

<u>Outsourcing Should be Defined</u>. Decisions should be made about what functions will be outsourced instead of performed by staff. This could include a wide variety of areas like building customer drops, network monitoring, providing ISP routing, etc. Outsourced vendors should be identified and integrated into the implementation team as needed. <u>Hiring Process</u>. If the new business will add employees, the process of creating job descriptions, defining benefits, determining salaries, determining the interview process should be established.

<u>Procurement Readiness</u>. List of needed purchases should be made. Even if construction contractor buys network materials, the company will likely need to purchase vehicles, computers, furniture, office equipment, test equipment, etc. Any needed real estate should be identified and procured. The formal purchasing process should be defined (low costs bids, RFPs, etc.) if it will be used. If the company is going to buy construction materials, then specifications need to be created, quantities determined, and vendors selected.

<u>Regulatory Readiness</u>. A new retail ISP may need to be certified by a State regulatory authority. ISPs need to register with the FCC. Tariffs might need to be filed with the State. There is a list of regulatory steps that must be taken by every ISP such as registering with the Universal Service Fund, registering with the FBI to define processes for assisting with wire taps, etc. There are additional regulatory steps required if the ISP plans to sell voice or cable TV products. There are numerous industry processes that must be put in place to exchange traffic with the outside world.

<u>Contract Readiness</u>. A new ISP often needs several contracts such as interconnection agreements, pole-attachment agreements, franchise and rights-of-way agreements. If the business will have contracts with customers a shell agreement should be created.

<u>Product Readiness</u>. Specific products and prices should be developed. All vendors needed to provide any product should be selected. The ISP needs to define numerous policies such as using credit checks for potential customer, requiring deposits, plus how to react to things like unpaid invoices or partially paid invoices.

<u>Software Readiness</u>. ISPs use software to enable the customer care process from order taking to billing (OSS/BSS system). There are other kinds of software often used such as sales software, mapping software, etc. that should be purchased and training provided for staff.

<u>Sales and Marketing Plan</u>. Possibly the biggest key to success in launching a fiber business is a successful sales and marketing plan. You want two plans – one for selling to residents and another for selling to businesses. If sales involve door-todoor selling, there will be training on the consultative sales process. The sales plan also includes the development of things like product literature that explains your products to customers, a sales-oriented web site, customer documents like price lists and terms of service. You'll also want to develop an advertising plan and strategy. You'll need a compensation plan if there will be sales commissions.

<u>Building Readiness</u>. There may be buildings to be built or modified. This could include employee office space and a retail public space. There will typically be a network core area to include electronics that much be air-conditioned. You'll likely need to prepare to provide emergency generators for electric outages. Most networks include numerous huts and cabinets that need to be sized, equipped, and placed in service.

<u>Business Office Readiness</u>. The business will have to identify, secure, and prepare the retail business office where the public can interface with the business. Processes need to be established to accept payments and safely accept cash.

<u>Accounting Readiness</u>. The business must be prepared to account for a huge number of invoices and transactions during the construction process. An auditor should be selected. Accounting software should be defined and purchased. A chart of accounts and budgetary process should be established. The process for internal approval of invoices and other payments should be established.

<u>Construct the Network</u>. Define timeline and responsibilities for constructing the network. Be ready to house and store construction materials and to provision daily to crews as needed. Have all processes in place for construction such as permitting, rights-of-ways, traffic control, utility locating, etc. Define who inspects and approves construction. What's the testing process to approve and accept completed segments of the network?

<u>Customer Location Procedures</u>. Define the standard installation process. Do electronics go on inside or outside of premise? Where are you willing to place electronics inside of premise? When do extra fees get invoked for non-standard installation. Determine steps and timeline for building drops, adding electronics, turnup and testing, customer training.

<u>ISP Readiness</u>. The servers, switches and other devices used to provide ISP services should be purchased. IP addresses should be purchased. ISP functions such as email services, DNS routing, and security readiness against malicious software and hacking should be defined an implemented.

<u>Network Security Plan</u>. There should be a plan in place for disaster recovery should the network crash. There should be both physical and electronic barriers created around key electronics, buildings, software, etc. <u>Customer Process Readiness</u>. Every process for interfacing with customers including sales, order taking, provisioning, installation, taking payments, etc. should be clearly defined and tested. Every person in the customer care chain should know their role and responsibilities and should know what to do if an expected process doesn't work. Processes for screening customers such as credit checks or requiring deposits should be defined.

<u>Billing Readiness</u>. Define bill format. Determine customer payment options – cash, credit card, checks, live payments, bank debits. Determine billing cycles. Determine late payment and disconnection processes. Make sure first bill is correct before sending.

<u>Provisioning Process</u>. Make sure customers get the products they ordered. Connect the services in time for installation. Make sure that needed hardware is given to the installer for each customer. Test each customer's products before hand-off.

<u>Network Monitoring Process</u>. Equipment alarms should be enabled to notify if there are problems with electronics or the network. The process of monitoring the network 24/7 should be defined. There should be an escalation process so that the right people are alerted for various levels of troubles and outages. There should be a process for issuing trouble tickets and of tracking and closing them as troubles are resolved.

<u>Customer Trouble Process</u>. Define how customers can interface with the business (live, telephone, text, through website, etc.) Define who takes customer trouble calls. Define first tier maintenance to try to resolve problems over the phone. Define how to escalate and to dispatch repair technicians to customer premise. Prioritize and track every customer outage to make sure all are handled.

Connect the First Customer. Whew!

TELECOMMUNICATIONS BROADBAND CUSTOMER SERVICE POLICIES OF THE PUBLIC UTILITY DISTRICT NO.1 OF JEFFERSON COUNTY, WASHINGTON

-Adopted: -April xx, 2021

1.0 APPLICABILITY OF POLICIES

These TelecommunicationsBroadband Customer Service Policies are subject to revision by the Commission of the Public Utility District No. 1 of Jefferson County, Washington (the "District") from time to time as determined to be in the District's District's best interests.

The District provides telecommunications<u>Broadband</u> services and facilities in accordance with the provisions of RCW 54.16.330. The District reserves the right to discontinue any service at any time and in the event that any Customer shall fail to comply with these Policies. Service also may be disconnected by the District at any time to prevent fraudulent use or to protect its property.

Contracts between the District and Customers for specialized services such as telecommunication Broadband transport services or dark fiber may contain conditions from different terms and those set forth in these **Telecommunications**Broadband Customer Service Policies provided such contracts are approved by the District's Commission and further provided that such contracts shall comply with RCW 54.16.330 requiring that the rates, terms, and conditions for such services are not unduly or unreasonably discriminatory or preferential.

1.1 DEFINITION OF TERMS

Special terms when used in these policies shall have the following definitions:

<u>Commission</u>	The elected Board of Commissioners of Public Utility District of Jefferson County, Washington.
<u>Customer</u>	A person or entity purchasing wholesale Telecommunications Services from the District. A Customer may not be a retail user of Telecommunications Services.
<u>Due Date</u>	The date by which the Customer's payment for Telecommunications Services must be received by the District as specified on the District's Billing Statement. The Due Date will be 30 days after the billing date specified on the bill, or the next business day if the 30 th day is a weekend or a holiday.
<u>Pre-Pay</u>	An agreement by the District and the Customer obligating the Customer to make advance payment for Telecommunications Services or Facilities.
Special Fiber Construction	District may require the Customer to pre-pay for some cost of construction needed to add a User to the network before the customer is added to the network. Special Fiber Construction may be charged if the Customer asks to connect to a User to anywhere other than the normal Fiber Demarcation Point. Special Fiber Construction may also be assessed for Users for which there are high costs of connection required to connect to the network.
<u>Telecommunications</u>	
<u>Services</u>	All telecommunications services and facilities provided to Customers as set forth in an applicable District rate schedule.
Telecommunication	
<u>Facilities</u>	Those facilities required to provide Telecommunications Services. This includes, but is not limited to, fiber, vaults, switches, routers and gateways.
Fiber Demarcation Point	The designated connection point at which the District's facilities end. The final location of the Fiber Demarcation Point shall be determined exclusively by the District. District devices will, to the extent feasible, be installed only in locations that

	allow free and safe access for installing, removing and testing.
<u>User</u>	A person or entity that is receiving access to Telecommunications Services from a Customer
TELECOMMUNICATION	
TERM	DEFINTION
Commission	<u>The Board of Commissioners of Public Utility District No. 1 of</u> <u>Jefferson County, Washington.</u>
<u>Customer</u>	<u>A person or entity purchasing wholesale Broadband Services</u> from the District. A Customer may not be a retail user of Broadband Services.
<u>Due Date</u>	The date by which the Customer's payment for Broadband Services must be received by the District as specified on the District's Billing Statement. The Due Date will be 30 days after the billing date specified on the bill, or the next business day if the 30 th day is a weekend or a holiday.
<u>Pre-pay</u>	An agreement by the District and the Customer obligating the Customer to make advance payment for Broadband Services or Facilities.
Special Fiber	Special Fiber Construction may be charged if the Customer
Construction	requests a connection for a User to anywhere other than the normal Fiber Demarcation Point. The District may require the Customer to pre-pay the cost of construction needed to add a User to the network before the Customer or User is connected. Special Fiber Construction may also be assessed for Users where high costs of connection are required to connect to the network.
Broadband Services	<u>All Broadband services and facilities provided to Customers</u> as set forth in an applicable District rate schedule.
<u>Broadband</u> Facilities	<u>Those facilities required to provide Broadband Services. This</u> includes, but is not limited to, fiber, vaults, switches, routers, and gateways.

<u>Tier 1 Technical</u> <u>Support</u>	Support provided by the District during normal business hours of 8am to 4:30pm Monday through Friday. This support is for District owned material and equipment only.
Fiber Demarcation Point	The designated connection point at which the District's facilities end. The final location of the Fiber Demarcation Point shall be determined by the District. The District's devices will, to the extent feasible, be installed only in locations that allow free and safe access for installing, removing, and testing.
<u>User</u>	A person or entity that is receiving access to Broadband

2.0 **BROADBAND** GENERAL POLICIES

Services and Broadband Facilities from a Customer.

2.1 RATE SCHEDULE

A Rate Schedule has been adopted by the Commission to establish <u>rates and</u> charges for <u>TelecommunicationsBroadband</u> Services. The Commission may revise the rate schedule from time to time and at any time as they determine necessary or advisable. Copies of the current rate schedules are available upon request.

2.2 LIMITATIONS OF DISTRICT OBLIGATIONS

The District will attempt to provide, but does not guarantee, a regular and uninterrupted supply of service. Broadband Services. The District may suspend the delivery of serviceBroadband Services for the purpose of making repairs or improvements to its **Telecommunications**Broadband Facilities. Repairs or improvements that can be scheduled will be scheduled, when feasible, at such time minimize Customers and as to impact to Users. Telecommunications Broadband Services/Facilities are inherently subject to interruption, suspension, curtailment and fluctuation. In no event, however, shall the District be liable to its Customers or any other persons for any damages to person or property arising out of, or related to, any interruption, suspension, curtailment, or fluctuation in service if such interruption, suspension, curtailment, or fluctuation results in whole or part from any of the following:

- A. Causes beyond the **District's** District's reasonable control including, but not limited to, accident or casualty, fire, flood, drought, wind, acts of the elements, court orders, insurrections or riots, breakdowns of or damage to equipment/facilities of <u>the</u> District or of third parties, acts of God or public enemy, <u>pandemics</u>, strikes or other labor disputes, civil, military, or governmental authority; or
- B. Repair, maintenance, improvement, renewal, or replacement work on District's Telecommunication District's Broadband Facilities, which work, in the sole <u>exclusive</u> judgment of <u>the</u> District, is necessary or prudent; or
- C. <u>C.</u> Automatic or manual actions taken by <u>the</u> District, which in its sole judgement are necessary or prudent to protect the performance, integrity, reliability or stability of <u>District's telecommunication</u>the <u>District's Broadband</u> system or any <u>telecommunicationBroadband</u> system with which it is interconnected.

2.3 LIMITATIONS OF DAMAGES

In no event shall the District have any obligation or liability for any lost profits, consequential, -incidental, indirect, special, or punitive damages of any type of, or in any way connected arising out to, the **District's** Telecommunications District's Broadband Services/Facilities or any interruption, or fluctuation suspension, curtailment, of the **District's** Telecommunications District's Broadband Services regardless of the cause thereof. The District is expressly not responsible or liable for the content of any transmission across its network.

2.4 <u>2.4</u> CUSTOMER OBLIGATIONS

It shall be the responsibility of the Customer to abide by all applicable rate schedules and policies relating to service as the same currently exist or are hereafter amended. By continuing to utilize the **District's TelecommunicationsDistrict's Broadband** Services, the Customer shall be deemed to have accepted all of the terms and conditions contained in the **District's District's** rate schedules and policies as the same currently exist or are amended from time to time.

2.5 <u>2.5</u> APPLICATION FOR SERVICE

A new Customer must apply to the District for approval before being allowed to use the **District's** fiber network. Customer must provide the following to be approved to use the network:

- Customer must provide a current valid business license and UBI number or local business license as required that provide proof that the Customer is legally allowed to resell services.
- Customer must be current and have paid all previously accrued and outstanding amounts owed the District for TelecommunicationsBroadband Services.
- Customer shall procure and maintain for the time in which Customer is providing services using the District fiber network, insurance against claims for injuries to persons or damage to property which may arise from or in connection with the performance of the work hereunder by the Customer, its agents, representatives, employees, or subcontractors. Any payment of deductible or self-insured retention shall be the sole responsibility of the Customer.-Customer shall provide a Certificate of Insurance which shall include the following:
 - Automobile Liability insurance with limits no less than \$1,000,000 combined single limit per accident for bodily injury and property damage;.
 - Commercial General Liability insurance written on an occurrence basis with limits no less than \$1,000,000 per occurrence and \$2,000,000 in the aggregate for personal injury, bodily injury, and property damage. Coverage shall include but not be limited to: blanket contractual; products/completed operations; broad form property damage; explosion, collapse and underground (XCU) if applicable; and employer'semployer's liability; and

Worker's

- <u>Worker's</u> Compensation insurance at the limits established by the State of Washington.
- The PUD shall be named as an additional insured<u>Additional Insured</u> on the insurance policypolicies, as respects to work performed by or on behalf of the Customer, and a copy of the endorsementpolicy naming the PUD as additional insured shall be attached to the Certificate of Insurance. The Customer'sCustomer's insurance shall be primary insurance as respects the

PUD and the PUD shall be given thirty (30) days prior written notice of any cancellation, suspension or material change in coverage.

2.6 PRE-PAYMENT FOR USER CONNECTION TO THE NTWORKNETWORK

The Customer shall be required to prepay any Connection Fees as defined in the Rate Schedule as well as any Special <u>Fiber</u> Construction Charges assessed to a specific customer before the District will initiate the construction to add the User to the network.

3.0 BILLING AND COLLECTION

3.1 BILLING PERIODS

Customers will be billed monthly for <u>TelecommunicationsBroadband</u> Services or as otherwise provided in the applicable District rate schedules. Charges shall be prorated when <u>TelecommunicationsBroadband</u> Services are provided for more than or less than the actual billing period.

3.2 ADJUSTMENT OF BILLING ERRORS

The District reserves the right to adjust any billing when it determines that an error in billing has been made and a correction is in order. The District may revise such bill on the basis of best evidence available.

3.3 <u>3.3</u> PAYMENT

The District requires receipt of payment for <u>TelecommunicationsBroadband</u> Services/Facilities on or before the earlier of the Due Date specified on the billing statement or the date specified in the Prepayment Agreement if the Customer has executed a Prepayment Agreement for Connection Fees or Special Fiber Construction.

3.4 <u>**3.4**</u> LATE PAYMENT CHARGES

If payment hasn'thas not been received by the District on or before the required Due Date, a late charge shall be assessed on the unpaid balance. The late payment charge shall be calculated at 1.5% per month. In no event shall the minimum monthly late payment charge amount be less than \$50.00. Late payment charges shall continue to accrue until such time as the bill and all accumulated charges have been paid in full.

3.5 <u>3.5</u> RETURNED CHECK CHARGES

If Customer payment fails, due to any reason, the District will charge a return check fee in accordance with RCW 62A.3-501 and RCW 62A.3-525Washington law.

3.6 PAYMENT OPTIONS

Customers may make payment to the District by any District-approved means.

<u>4.0</u> CUSTOMER AND USER REQUIREMENTS

In order to To protect the District's TelecommunicationsDistrict's Broadband Services and TelecommunicationsBroadband Facilities, all Customers and Users shall strictly comply with the following requirements:

A. <u>4.1</u> Illegal Use

The **District's Telecommunications** District's Broadband Services may only be used for lawful purposes. Any transmission, distribution, retrieval, or storage of material that violates any applicable law is prohibited. Customers of **Telecommunications** Broadband Services are required to have and enforce

policies governing their Users which prohibit the following activities involving District <u>TelecommunicationsBroadband</u> Services or <u>TelecommunicationsBroadband</u> Facilities, without limitation:

- 1. Compliance with all Intellectual property rights and laws No Customer or User- shall violate any intellectual property rights including those protected by patent, copyright, trade secret, or other intellectual property right.
- Inappropriate content -- No Customer or User shall transmit, broadcast, or receive any material that is legally obscene or constitutes child pornography, or any material that is libelous, defamatory, or that otherwise violates <u>any and</u> <u>all</u> applicable laws.
- 3. Export control No Customer or User shall transmit, broadcast, or receive any material that violates export control laws or other applicable regulations.
- 4. Forging of Headers No Customer or User shall misrepresent or forge any message header to mask the originator of a transmitted communication.

B. <u>4.2</u> System and Network Security

The District makes no guarantee regarding, and assumes no liability for, the security and integrity of any data or information transmitted by the Customer or a User over the **District's TelecommunicationDistrict's Broadband** Facilities or **TelecommunicationsBroadband** Services. Any attempt to breach system and network security measures is expressly prohibited and may result in criminal and civil liability. Customers of **TelecommunicationsBroadband** Services are required to have policies governing their Users which prohibit the following, without limitation:

1. Unauthorized Access – Customers and Users may not attempt to gain unauthorized access to or attempt to interfere with the normal functioning and security of the TelecommunicationsBroadband Services or any other District system. Illegally accessing or accessing without proper authorization computers, accounts, networks or purposely breaching firewalls or security measures of another company's or individual's system (hacking) is also a violation.

- 2. Unauthorized Monitoring Customers and Users may not attempt to monitor any information on any network or system without authorization of the owner of that network.
- 3. Interference Customers and Users may not attempt to intercept, redirect, or otherwise interfere with communications intended for other parties.
- 4. Fraud/Forgery Customers and Users are expressly prohibited from impersonating another party by altering IP addresses or forging TCP-IP packet header information within an email or newsgroup posting. Misrepresenting or forging message headers to mask the originator of a message is a violation of these policies.
- 5. <u>"</u>Denial of Service Attacks<u>"</u> Customers and Users may not flood, deliberately attempt to overload a system, or broadcast attacks.
- 6. Virus Transmission Customers and Users may not intentionally or negligently transmit files containing a computer virus, Trojan Horse, Worms, corrupted data, or other destructive activities.
- Re-transmission -- Transmission of District network services beyond the premises which is directly connected to the <u>District's District's network</u>, except as specifically allowed under Rate Schedule 100.

C. <u>4.3</u> Email

Although the District makes no promises to police any activities on the **Telecommunication**Broadband Facilities, it is required that Customers of **Telecommunications**Broadband Services have and enforce policies for Users requiring compliance with certain conduct in connection with e-mail. Compliance shall include, without limitation:

- Unsolicited Email Users may not use any Services to transmit or collect the responses from excessive volumes of unsolicited commercial e-mail messages. The use of another provider's service to send unsolicited commercial or bulk e-mails, SPAM, or mass mailings to promote a site associated with the <u>District'sDistrict's</u> network or any of its customers is similarly prohibited.
- 2. E-mail Relay The use of another party's e-mail server to relay e-mail without express permission from such party is prohibited.

D. <u>5.0</u> Rights of the District

1. The District will cooperate with legally authorized law enforcement and government agencies or other parties involved in investigating claims of illegal or inappropriate activity. Taking any services on the District's network constitute consent to all the use policies and providing access to legally authorized law enforcement and government agencies or other parties involved in investigating claims of illegal or inappropriate activity.

2. Violation of this policy may result in temporary suspension or termination of service, at the **District's** <u>District's</u> sole discretion. <u>The District's right to</u> <u>discontinue Broadband Service may be exercised whenever:</u>

3.8 RIGHT TO DISCONNECT

The District's right to discontinue Telecommunications Service may be exercised whenever:

- A. Customer is not current on payments due to District. District invoices are due and payable within 30 <u>calendar</u> days. Customer will be disconnected if at least 75% of any past due billing has not been paid within 30 calendar date of the invoice. days past the Disconnection of TelecommunicationsBroadband Services may occur as often as delinguency shall occur and neither delay nor omission on the part of the District to enforce this rule at any one or more times shall be deemed as a waiver of its rights to enforce the same at any time, so long as the delinguency continues; or
- B. Violation of these <u>TelecommunicationsBroadband</u> Customer Service Policies, <u>special contracts</u> or the signed <u>TelecommunicationsBroadband</u> Service Provider Application and Agreement, <u>if any</u>.

4.0 <u>6.0</u> SERVICE OBLIGATIONS

A. <u>6.1</u> Request for New Service

Customer shall make a formal request to connect a new User to the network by sending an email to <u>broadband@jeffersonpud.org</u>.broadband@jeffpud.org</u>. That email should contain the following minimum information:_

- ☑ Name of the User
- ☑ Address of the User
- ☑ The specific product being requested from the Rate Schedule

Within **7days**12 calendar days of a formal request for serviceService, the District shall provide Customer with a quote for serviceService which would include any additional pre-paidprepaid fees required for to cover the cost of construction or installation.

At this point, Customer can <u>then</u> place a valid order for <u>serviceService</u> by prepaying the District for any <u>connection feesConnection Fees</u> as described in the <u>TelecommunicationsBroadband</u> Rate Schedules and pre-paying any specific construction charges that the District is requiring <u>for Special Fiber Construction</u>, if any, for a specific customer.

Before the District will proceed with construction, Customer must provide evidence that the real property owner is granting <u>any necessary</u> easement <u>or</u> <u>access agreement</u> to the District for crossing and locating <u>infrastructureits</u> <u>facilities</u> on the <u>Customer's</u> property. <u>or premises</u>.

Customer must also notify the User about any planned site visit by the District. and provide evidence of such notification to the District.

B. <u>6.2</u> Installation Goals

Both parties The District and the Customer shall cooperate to try to connect a new residential User to the network within 30 days of the date of a valid order.

The District and <u>the</u> Customer will work jointly to set an installation date goal for each new business customer at the point where there is a valid order.

C. <u>6.3</u> Demarcation

The physical demarcation point between the District network and Customer network shall be at the point where the District places the electronics at a User location that converts light signal into electrical signal.

The **District's** policy for a residential User is to place the demarcation on the outside of a User location close to the electric meter, but the District retains the right to locate the demarcation point indoors or at some different outdoor location.

The **District's** policy for a business User is to place the demarcation indoors at the customer location. The District expects Customer to be familiar with the customer location and to define the location of a business User demarcation.

In all cases, Customer may request an alternate demarcation point from that suggested by the District. The District will try to accommodate the Customer request, but there may be additional fees.

The **District's Responsibility**<u>District's responsibility</u> ends at the demarcation point and all wiring and other facilities past the demarcation are the responsibility of Customer. District might agree to do additional work past the demarcation point but is not obligated to do so. Any District work past the demarcation will be performed at the **District's**<u>District's</u> hourly rate identified on the Rate Schedule. <u>Such District work does not change the demarcation point and Customer's</u> <u>obligations</u>.

When the installation to the demarcation is complete the District will notify the Customer and will include any information pertinent to the installation.

D. <u>6.4</u> Responsibility for Maintenance and Repairs

<u>The</u> District is responsible for all network obligations on the District side of the demarcation, including the electronics at the demarcation point. Customer is responsible for all network at the User location that is past the demarcation point.

Each party will be responsible for all maintenance and repair costs on its side of the demarcation point.

Both parties will cooperate to reduce unneeded truck rolls. Should <u>the</u> District be requested to make a truck roll by <u>a</u> Customer but finds that the problem was on the Customer side of the demarcation, the District will bill <u>the Customer for</u> time and materials as defined in <u>TelecommunicationsBroadband</u> Rate Schedule. There will no fees for a truck roll where the problem was on the District side of the demarcation. <u>_____</u>

E. <u>6.5</u> Network Monitoring / Escalation

Customer must provide the District with an escalation list that identifies the contact at the Customer who should be notified of network problems or outages. This list shall identify the specific and best ways to reach the Customer contact, including telephone number and email address. Customer should also provide a back-up contact in case the primary contact can't cannot be reached. Customer is free to provide different contacts for different kindkinds of network problems. Customer shall keep the contact list current at all times.

District will monitor the fiber network 24/7. The District will notify the appropriate Customer contact –about identified network problems that have a material impact on User performance.

BROADBAND CUSTOMER SERVICE POLICIES OF PUBLIC UTILITY DISTRICT NO.1 OF JEFFERSON COUNTY, WASHINGTON

Adopted: April xx, 2021

1.0 APPLICABILITY OF POLICIES

These Broadband Customer Service Policies are subject to revision by the Commission of Public Utility District No. 1 of Jefferson County, Washington (the "District") from time to time as determined to be in the District's best interests.

The District provides Broadband services and facilities in accordance with the provisions of RCW 54.16. The District reserves the right to discontinue any service at any time and in the event that any Customer shall fail to comply with these Policies. Service also may be disconnected by the District at any time to prevent fraudulent use or to protect its property.

Contracts between the District and Customers for specialized services such as Broadband transport services or dark fiber may contain different terms and conditions from those set forth in these Broadband Customer Service Policies provided such contracts are approved by the District's Commission and further provided that such contracts shall comply with RCW 54.16.

1.1 DEFINITION OF TERMS

TERM DEF	INTION
----------	--------

<u>Commission</u>	The Board of Commissioners of Public Utility District No. 1 of
	Jefferson County, Washington.

<u>Customer</u> A person or entity purchasing wholesale Broadband Services from the District. A Customer may not be a retail user of Broadband Services.

Due Date The date by which the Customer's payment for Broadband Services must be received by the District as specified on the District's Billing Statement. The Due Date will be 30 days after the billing date specified on the bill, or the next business day if the 30th day is a weekend or a holiday.

Pre-pay An agreement by the District and the Customer obligating the Customer to make advance payment for Broadband Services or Facilities.

Special FiberSpecial Fiber Construction may be charged if the CustomerConstructionrequests a connection for a User to anywhere other than the
normal Fiber Demarcation Point. The District may require the
Customer to pre-pay the cost of construction needed to add a
User to the network before the Customer or User is
connected. Special Fiber Construction may also be assessed
for Users where high costs of connection are required to
connect to the network.

Broadband Services All Broadband services and facilities provided to Customers as set forth in an applicable District rate schedule.

BroadbandThose facilities required to provide Broadband Services. ThisFacilitiesincludes, but is not limited to, fiber, vaults, switches, routers, and gateways.

Tier 1 TechnicalSupport provided by the District during normal business hoursSupportof 8am to 4:30pm Monday through Friday. This support is for
District owned material and equipment only.

Fiber DemarcationThe designated connection point at which the District's
facilities end. The final location of the Fiber Demarcation Point
shall be determined by the District. The District's devices will,
to the extent feasible, be installed only in locations that allow
free and safe access for installing, removing, and testing.

User A person or entity that is receiving access to Broadband Services and Broadband Facilities from a Customer.

2.0 BROADBAND GENERAL POLICIES

2.1 RATE SCHEDULE

A Rate Schedule has been adopted by the Commission to establish rates and charges for Broadband Services. The Commission may revise the rate schedule from time to time and at any time as they determine necessary or advisable. Copies of the current rate schedules are available upon request.

2.2 LIMITATIONS OF DISTRICT OBLIGATIONS

The District will attempt to provide, but does not guarantee, a regular and uninterrupted supply of Broadband Services. The District may suspend the delivery of Broadband Services for the purpose of making repairs or improvements to its Broadband Facilities. Repairs or improvements that can be scheduled will be scheduled, when feasible, at such time as to minimize impact to Customers and Users. Broadband Services/Facilities are inherently subject to interruption, suspension, curtailment and fluctuation. In no event, however, shall the District be liable to its Customers or any other persons for any damages to person or property arising out of, or related to, any interruption, suspension, curtailment, or fluctuation in service if such interruption, suspension, curtailment, or fluctuation results in whole or part from any of the following:

A. Causes beyond the District's reasonable control including, but not limited to, accident or casualty, fire, flood, drought, wind, acts of the elements, court orders, insurrections or riots, breakdowns of or damage to equipment/facilities of the District or of third parties, acts of God or public enemy, pandemics, strikes or other labor disputes, civil, military, or governmental authority; or

- B. Repair, maintenance, improvement, renewal, or replacement work on District's Broadband Facilities, which work, in the sole exclusive judgment of the District, is necessary or prudent; or
- C. C. Automatic or manual actions taken by the District, which in its sole judgement are necessary or prudent to protect the performance, integrity, reliability or stability of the District's Broadband system or any Broadband system with which it is interconnected.

2.3 LIMITATIONS OF DAMAGES

In no event shall the District have any obligation or liability for any lost profits, consequential, incidental, indirect, special, or punitive damages of any type arising out of, or in any way connected to, the District's Broadband Services/Facilities or any interruption, suspension, curtailment, or fluctuation of the District's Broadband Services regardless of the cause thereof. The District is expressly not responsible or liable for the content of any transmission across its network.

2.4 CUSTOMER OBLIGATIONS

It shall be the responsibility of the Customer to abide by all applicable rate schedules and policies relating to service as the same currently exist or are hereafter amended. By continuing to utilize the District's Broadband Services, the Customer shall be deemed to have accepted all of the terms and conditions contained in the District's rate schedules and policies as the same currently exist or are amended from time to time.

2.5 APPLICATION FOR SERVICE

A new Customer must apply to the District for approval before being allowed to use the District's fiber network. Customer must provide the following to be approved to use the network:

- Customer must provide a current valid business license and UBI number or local business license as required that provide proof that the Customer is legally allowed to resell services.
- ☑ Customer must be current and have paid all previously accrued and outstanding amounts owed the District for Broadband Services.
- Customer shall procure and maintain for the time in which Customer is providing services using the District fiber network, insurance against claims for injuries to persons or damage to property which may arise from or in connection with the performance of the work hereunder by the Customer, its

agents, representatives, employees, or subcontractors. Any payment of deductible or self-insured retention shall be the sole responsibility of the Customer. Customer shall provide a Certificate of Insurance which shall include the following:

- Automobile Liability insurance with limits no less than \$1,000,000 combined single limit per accident for bodily injury and property damage.
- Commercial General Liability insurance written on an occurrence basis with limits no less than \$1,000,000 per occurrence and \$2,000,000 in the aggregate for personal injury, bodily injury, and property damage. Coverage shall include but not be limited to blanket contractual; products/completed operations; broad form property damage; explosion, collapse and underground (XCU) if applicable; and employer's liability; and
- Worker's Compensation insurance at the limits established by the State Washington.
- The PUD shall be named as an Additional Insured on the insurance policies, as respects to work performed by or on behalf of the Customer, and a copy of the policy naming the PUD as additional insured shall be attached to the Certificate of Insurance. The Customer's insurance shall be primary insurance as respects the PUD and the PUD shall be given thirty (30) days prior written notice of any cancellation, suspension or material change in coverage.

2.6 PRE-PAYMENT FOR USER CONNECTION TO THE NETWORK

The Customer shall be required to prepay any Connection Fees as defined in the Rate Schedule as well as any Special Fiber Construction Charges assessed to a specific customer before the District will initiate the construction to add the User to the network.

3.0 BILLING AND COLLECTION

3.1 BILLING PERIODS

Customers will be billed monthly for Broadband Services or as otherwise provided in the applicable District rate schedules. Charges shall be prorated when Broadband Services are provided for more than or less than the actual billing period.

3.2 ADJUSTMENT OF BILLING ERRORS

The District reserves the right to adjust any billing when it determines that an error in billing has been made and a correction is in order. The District may revise such bill on the basis of best evidence available.

3.3 PAYMENT

The District requires receipt of payment for Broadband Services/Facilities on or before the earlier of the Due Date specified on the billing statement or the date specified in the Prepayment Agreement if the Customer has executed a Prepayment Agreement for Connection Fees or Special Fiber Construction.

3.4 LATE PAYMENT CHARGES

If payment has not been received by the District on or before the required Due Date, a late charge shall be assessed on the unpaid balance. The late payment charge shall be calculated at 1.5% per month. In no event shall the minimum monthly late payment charge amount be less than \$50.00. Late payment charges shall continue to accrue until such time as the bill and all accumulated charges have been paid in full.

3.5 RETURNED CHECK CHARGES

If Customer payment fails, due to any reason, the District will charge a return check fee in accordance with Washington law.

3.6 PAYMENT OPTIONS

Customers may make payment to the District by any District-approved means.

4.0 CUSTOMER AND USER REQUIREMENTS

To protect the District's Broadband Services and Broadband Facilities, all Customers and Users shall strictly comply with the following requirements:

4.1 Illegal Use

The District's Broadband Services may only be used for lawful purposes. Any transmission, distribution, retrieval, or storage of material that violates any applicable law is prohibited. Customers of Broadband Services are required to have and enforce policies governing their Users which prohibit the following activities involving District Broadband Services or Broadband Facilities, without limitation:

- 1. Compliance with all Intellectual property rights and laws No Customer or User shall violate any intellectual property rights including those protected by patent, copyright, trade secret, or other intellectual property right.
- 2. Inappropriate content No Customer or User shall transmit, broadcast, or receive any material that is legally obscene or constitutes child pornography, or any material that is libelous, defamatory, or that otherwise violates any and all applicable laws.
- 3. Export control No Customer or User shall transmit, broadcast, or receive any material that violates export control laws or other applicable regulations.
- 4. Forging of Headers No Customer or User shall misrepresent or forge any message header to mask the originator of a transmitted communication.

4.2 System and Network Security

The District makes no guarantee regarding, and assumes no liability for, the security and integrity of any data or information transmitted by the Customer or a User over the District's Broadband Facilities or Broadband Services. Any attempt to breach system and network security measures is expressly prohibited and may result in criminal and civil liability. Customers of Broadband Services are required to have policies governing their Users which prohibit the following, without limitation:

1. Unauthorized Access - Customers and Users may not attempt to gain unauthorized access to or attempt to interfere with the normal functioning and security of the Broadband Services or any other District system. Illegally accessing or accessing without proper authorization computers, accounts, networks or purposely breaching firewalls or security measures of another company's or individual's system (hacking) is also a violation.

- 2. Unauthorized Monitoring Customers and Users may not attempt to monitor any information on any network or system without authorization of the owner of that network.
- 3. Interference Customers and Users may not attempt to intercept, redirect, or otherwise interfere with communications intended for other parties.
- 4. Fraud/Forgery Customers and Users are expressly prohibited from impersonating another party by altering IP addresses or forging TCP-IP packet header information within an email or newsgroup posting. Misrepresenting or forging message headers to mask the originator of a message is a violation of these policies.
- 5. "Denial of Service Attacks" Customers and Users may not flood, deliberately attempt to overload a system, or broadcast attacks.
- 6. Virus Transmission Customers and Users may not intentionally or negligently transmit files containing a computer virus, Trojan Horse, Worms, corrupted data, or other destructive activities.
- 7. Re-transmission Transmission of District network services beyond the premises which is directly connected to the District's network, except as specifically allowed under Rate Schedule 100.

4.3 Email

Although the District makes no promises to police any activities on the Broadband Facilities, it is required that Customers of Broadband Services have and enforce policies for Users requiring compliance with certain conduct in connection with e-mail. Compliance shall include, without limitation:

1. Unsolicited Email - Users may not use any Services to transmit or collect the responses from excessive volumes of unsolicited commercial e-mail messages. The use of another provider's service to send unsolicited commercial or bulk e-mails, SPAM, or mass mailings to promote a site associated with the District's network or any of its customers is similarly prohibited.

2. E-mail Relay - The use of another party's e-mail server to relay e-mail without express permission from such party is prohibited.

5.0 Rights of the District

The District will cooperate with legally authorized law enforcement and government agencies or other parties involved in investigating claims of illegal or inappropriate activity. Taking any services on the District's network constitute consent to all the use policies and providing access to legally authorized law enforcement and government agencies or other parties involved in investigating claims of illegal or inappropriate activity.

Violation of this policy may result in temporary suspension or termination of service, at the District's sole discretion. The District's right to discontinue Broadband Service may be exercised whenever:

- A. Customer is not current on payments due to District. District invoices are due and payable within 30 calendar days. Customer will be disconnected if at least 75% of any past due billing has not been paid within 30 calendar days past the date of the invoice. Disconnection of Broadband Services may occur as often as delinquency shall occur and neither delay nor omission on the part of the District to enforce this rule at any one or more times shall be deemed as a waiver of its rights to enforce the same at any time, so long as the delinquency continues; or
- B. Violation of these Broadband Customer Service Policies, special contracts or the signed Broadband Service Provider Application and Agreement, if any.

6.0 SERVICE OBLIGATIONS

6.1 Request for New Service

Customer shall make a formal request to connect a new User to the network by sending an email to <u>broadband@jeffpud.org</u>. That email should contain the following minimum information:

- ☑ Name of the User
- Address of the User
- ☑ The specific product being requested from the Rate Schedule

Within 12 calendar days of a formal request for Service, the District shall provide Customer with a quote for Service which would include any additional prepaid fees required for to cover the cost of construction or installation.

Customer can then place a valid order for Service by pre-paying the District for any Connection Fees as described in the Broadband Rate Schedules and prepaying any specific construction charges that the District is requiring for Special Fiber Construction, if any, for a specific customer.

Before the District will proceed with construction, Customer must provide evidence that the real property owner is granting any necessary easement or access agreement to the District for crossing and locating its facilities on the Customer's property or premises.

Customer must also notify the User about any planned site visit by the District and provide evidence of such notification to the District.

6.2 Installation Goals

The District and the Customer shall cooperate to try to connect a new residential User to the network within 30 days of the date of a valid order.

The District and the Customer will work jointly to set an installation date goal for each new business customer at the point where there is a valid order.

6.3 Demarcation

The physical demarcation point between the District network and Customer network shall be at the point where the District places the electronics at a User location that converts light signal into electrical signal.

The District's policy for a residential User is to place the demarcation on the outside of a User location close to the electric meter, but the District retains the right to locate the demarcation point indoors or at some different outdoor location.

The District's policy for a business User is to place the demarcation indoors at the customer location. The District expects Customer to be familiar with the customer location and to define the location of a business User demarcation.

In all cases, Customer may request an alternate demarcation point from that suggested by the District. The District will try to accommodate the Customer request, but there may be additional fees.

The District's responsibility ends at the demarcation point and all wiring and other facilities past the demarcation are the responsibility of Customer. District might agree to do additional work past the demarcation point but is not obligated to do so. Any District work past the demarcation will be performed at the District's hourly rate identified on the Rate Schedule. Such District work does not change the demarcation point and Customer's obligations.

When the installation to the demarcation is complete the District will notify the Customer and will include any information pertinent to the installation.

6.4 Responsibility for Maintenance and Repairs

The District is responsible for all network obligations on the District side of the demarcation, including the electronics at the demarcation point. Customer is responsible for all network at the User location that is past the demarcation point.

Each party will be responsible for all maintenance and repair costs on its side of the demarcation point.

Both parties will cooperate to reduce unneeded truck rolls. Should the District be requested to make a truck roll by a Customer but finds that the problem was on the Customer side of the demarcation, the District will bill the Customer for time and materials as defined in Broadband Rate Schedule. There will no fees for a truck roll where the problem was on the District side of the demarcation point.

6.5 Network Monitoring / Escalation

Customer must provide the District with an escalation list that identifies the contact at the Customer who should be notified of network problems or outages. This list shall identify the specific and best ways to reach the Customer contact, including telephone number and email address. Customer should also provide a back-up contact in case the primary contact cannot be reached. Customer is free to provide different contacts for different kinds of network problems. Customer shall keep the contact list current at all times.

District will monitor the fiber network 24/7. The District will notify the appropriate Customer contact about identified network problems that have a material impact on User performance.

Jefferson County PUD RATE SCHEDULE Wholesale Broadband Services

Effective XX/XX/2021

- A. The rates listed on this schedule are available to qualified Internet Service Providers (ISPs) desiring to use the PUD's wholesale fiber optic network. The PUD reserves the right, at its sole option, to discontinue services listed in this rate schedule at any time.

DATE:	May 4, 2021	
то:	Board of Commissioners	
FROM:	Kevin Streett General Manager	
RE:	EDC Funding	
RECOMMENDATION: Discussion		

SUMMARY: Staff would like to discuss with the Board of Commissioners funding the EDC as part of the IGC.

BACKGROUND: The IGC is looking at ways to support EDC and the community with an agreement between the 4 entities of the IGC

ANALYSIS/FINDINGS: The BOC will be asked to support this program at the IGC meeting on May 20th.

FISCAL IMPACT: Minimum \$30,000 per year

RECOMMENDATION: Discussion and give direction to staff. Can bring back to the May 18th meeting.

Attachments: ADO Pre-Designation Agreement

PRE-DESIGNATION AGREEMENT BETWEEN EDC TEAM JEFFERSON & JEFFERSON COUNTY FOR BECOMING THE COUNTY'S ASSOCIATE DEVELOPMENT ORGANIZATION FOR THE 2021-2023 BIENNIUM (July 1, 2021 – June 30, 2023)

This Pre-Designation Agreement (hereinafter "Agreement") is entered into by Jefferson County, a political subdivision and municipal corporation of the State of Washington, having its principal offices at P.O. Box 1220, Port Townsend, WA 98368 (hereinafter "County") and Economic Development Council Team Jefferson, a 501(c)(6) tax exempt organization registered with Washington State as a non-profit corporation and having its principal offices at 2409 Jefferson Street, Suite A; Port Townsend, WA 98368 (hereinafter "EDC Team Jefferson") to articulate a mutual understanding of the economic development services and associate development activities EDC Team Jefferson will perform as a condition of being designated by the County to Washington State as Jefferson County's Associate Development Organization for the state's 2021-2023 Biennium (July 1, 2021 through June 30, 2023).

- 1. **Term.** The term of this Agreement shall commence upon execution by both parties, and shall continue through June 30, 2023, or until replaced by a subsequent Economic Development Services Agreement, described below, whichever is sooner.
- 2. Scope of Services to be performed by EDC Team Jefferson. Consistent with total revenue and in-kind support (from the Washington State Department of Commerce, Jefferson County including its Public Infrastructure Fund, the Port of Port Townsend, Jefferson County PUD No. 1, the City of Port Townsend, and other sources) EDC Team Jefferson will provide the following ADO and economic development services during the 2021-2023 Biennium:
 - A. Activities required by RCW 43.330.080 and by the Washington Dep't of Commerce contract with EDC Team Jefferson, including BRE meetings for example.
 - B. Administer COVID stimulus grants to local businesses
 - C. **Participate in developing an Economic Development Framework**, for adoption by the Intergovernmental Collaborative Group which is intended to align the work of EDC Team Jefferson and other economic development partners
 - D. **Participate in negotiating and executing a multi-party economic development agreement** of EDC Team Jefferson, the Port, PUD, City, County, and potentially others, as described in Section 5 below.
 - E. **Develop and implement a work program** that expands upon the work program from the prior biennium and includes pro-active services. The work program shall be developed in consultation with the Public Sector Cabinet for adoption by the EDC Board. It may subsequently be modified to align with the Economic Development Framework once the Framework has been adopted.

F. **Participate in a Mid-Term Check-Up and Adjustment** as described in Section 4, below and as may be further refined in the Multi-Party Agreement.

The following are examples of services that might be included in an EDC Team Jefferson work program, scaled to EDC Team Jefferson's staffing and available resources:

- **Business Services targeted** to:
 - Start-ups;
 - **Retaining & Expanding** Existing Businesses;
 - Business Recruitment, Marketing & Advertising
 - Assistance to Businesses **Relocating** to Jefferson County
 - Provide expanded portfolio of business classes coordinate with the Chamber, CIE, and others, on class offerings among the different organizations, and expand the types of class offerings for additional economic development purposes
 - **Provide easy access to economic data and business information resources**, in coordination with local libraries and other organizations
- Proactive Services consistent with the Economic Development Framework, such as:
 - **Pursue opportunities to actively attract or incubate businesses** in existing buildings or on developable land;
 - Help convene, encourage and support partners to pursue developing sites and associated infrastructure to promote economic development;
 - Develop a profile of Jefferson County's Existing Economy, to identify trends and opportunities for reducing barriers and promoting economic development
 - Economic Development Advocacy;
 - Proactively contacting retiring or closing businesses to help find new owners;
 - Convene related businesses to improve local supply chains;
 - **Promote value-added processing** of local products;
 - **Identify growth impediments and growth opportunities** within different business sectors, and help find solutions;
 - **Recommend actions that public agencies can take** to support economic development;
 - Develop & implement plans to expand business infrastructure, supports & services;
 - Administer & seek to expand LION, work to provide access and expand other financing options through banks, CRAFT 3, and others;
 - **Create a network with other partners** catalyze an Economic Development Network of organizations working in coordination with each other to foster economic development in Jefferson County.

3. Governance Structure.

- A. EDC Team Jefferson will amend its Board structure as follows, or as may be subsequently agreed through a multi-party agreement as described in Section 5 of this Agreement:
 - ☑ 13 or more Board members: 9 or more business sector seats, 4 government seats
 - 9+ business seats appointed by the EDC Board
 - 4 government seats set by a 5-party agreement, OR determined by the legislative body of each organization.
 - ☑ Of 9+ business seats, at least 1 seat from each Commissioner District. Strive for racial and gender diversity on the Board.
 - 9+ business seats with representatives from business sectors, experience and skills to support the mission & success of EDC Team Jefferson
 - ☑ Initial sectors on the Board might be drawn from (but not be limited to):
 - o Marine Trades
 - Technology
 - Broadband/Information Technology
 - o Real estate development
 - o Entrepreneurs
 - Healthcare
 - Chamber of Commerce
 - Non-profit organizations
 - Agriculture
 - o Aquaculture
- B. EDC Team Jefferson will continue convening the Public Sector Cabinet, generally consistent with the provisions of the December 21, 2020 Agreement for Economic Development Services of EDC Team Jefferson and Jefferson County (and as may be refined by a multi-party economic development agreement), including the chief administrative officers of the County, City of Port Townsend, Port of Port Townsend, Public Utility District No. 1, and others public sector entities as may mutually be agreed, plus the EDC's Executive Director and Board President. The Public Sector Cabinet is not a substitute for the EDC Board. Rather, the Public Sector Cabinet will help EDC staff develop work programs, strategies and recommendations for consideration by the EDC Board, or as directed by the EDC Board.
- 4. **Metrics, Communication and Accountability.** EDC Team Jefferson and the County agree on the need to develop improved performance and outcome metrics of EDC Team Jefferson's ADO and economic development work, the need to develop an effective strategy for communicating EDC Team Jefferson's activities and metrics, and the need for a strategy for enhanced accountability so corrections can be timely made to enhance performance. This may include:

- Quarterly Reports. EDC Team Jefferson shall provide detailed reporting of quantitative information on services rendered & outcomes in economic development, including (among others) a Business Recruitment – Active Business Report (see Port of Walla Walla);
- ☑ The semi-annual reports to the Department of Commerce will be shared;
- Other meaningful reports as may be mutually agreed with the Public Sector Cabinet, which may include, but are not limited to:
 - An annual Economic Vitality Index report, if available;
 - Business Retention and Expansion (BRE) activities;
 - Business Assistance activities;
 - ☑ Community Readiness and Capacity Building activities.
 - ☑ Classes offered, attendance rates, feedback reports/rates
- Annual Public Presentation. EDC Team Jefferson will present and discuss EDC Team Jefferson's performance measure report once annually to the legislative bodies of the jurisdictions in the multi-party agreement, demonstrating to the public the return on investment.
- Meet with the Public Infrastructure Fund Board annually, or as requested by the PIF Board Chair, to report on EDC Team Jefferson's economic development activities, outcomes and staffing (including identifying all staff financed in part with the PIF funds) in the prior twelve months, and to outline activities and staffing planned for the coming year.
- Regular financial updates, and half-yearly financial reports, including a financial statement detailing actual versus budgeted revenues and expenses, and a staffing summary.
- Mid-term Check-up and Adjustment. At the 9 month mark, an evaluation will be made of whether EDC's economic development strategy and services are hitting the mark, whether staffing, structure, and budget are effective, and whether any adjustments need to be made before entering into year two of the ADO biennium.
- 5. **Multi-party Agreement of EDC Team Jefferson with the Port, PUD, City & County**. It is the intent of the County and EDC Team Jefferson to negotiate a multi-party agreement with the Port of Port Townsend, Public Utility District No. 1, the City of Port Townsend, and potentially others, detailing ADO and economic development services during the state's 2021-2021 Biennium (and potentially beyond), which would include:
 - Funding Commitments by the local governments
 - EDC Team Jefferson's projected budget and staffing plan
 - A Refined Work Scope
 - **🛛** Refined Metrics, Communication & Accountability
 - ☑ Other provisions as may be mutually negotiated and agreed

6. **ADO Designation by Jefferson County.** Upon execution of this Agreement by both parties, the County will transmit to the Washington Department of Commerce the County's designation of EDC Team Jefferson as Jefferson County's Associate Development Organization for the 2021-2023 Biennium (July 1, 2021-June 30, 2023).
