CURRENT METER CHALLENGES

\$355,000 contract with Landis & Gyr for Meter Reading

Contract is tenuous, either side can back out before 2023

L&G has been unable to read many meters this summer

Staff is estimating reads to compensate

Page 6 of 38

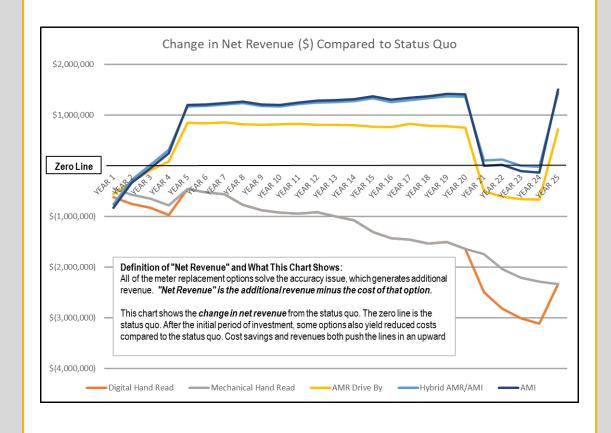

RECENT STUDY by FCS GROUP

Cost Benefit Analysis for 4 metering options

Began in 2019, COVID delayed in 2020, completed Aug 2021

Met with Board and CAB on multiple occasions

AMI determined to have the highest combined economic and non-economic favorability

Change in Net Revenue -			
Net Present Value at 2.50%			
Digital Hand Read	(\$22,800,000)		
Mechanical Hand Read	(\$20,300,000)		
AMR Drive By	\$7,500,000		
Hybrid AMR	\$14,500,000		
AMI	\$14,500,000		

FCS STUDY FINDINGS

AMI and Hybrid are the most economically advantageous Hand-read options are the least economically advantageous

Between Hybrid AMR and AMI, functional capability makes AMI the recommended approach

AMI has a positive net present value compared to the status quo—in other words, it pays for itself

STAFF VISION FOR METERS

Full replacement with AMI

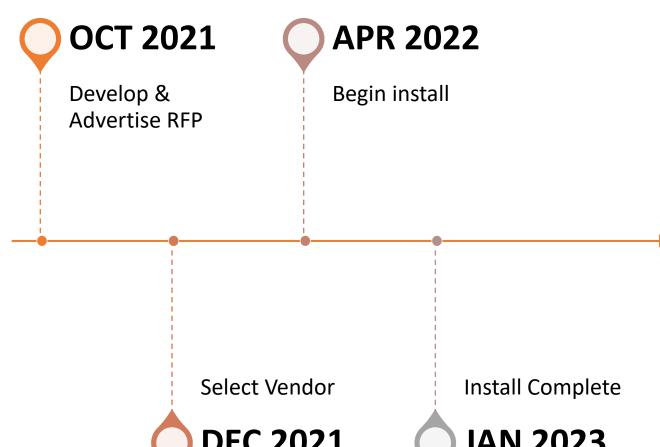

Use AMI to develop enhanced smart grid abilities

Better integration with renewables, EVs Improves billing, allows for time of use rates

BENEFITS OF A NEW AMI SYSTEM

End of line voltage Daily billing reads Interface with NISC Time of use Pre Pay Hot socket Remote disconnect Outage notification Voltage Issues Tamper detection detection MDMS (Meter Meter Alarms Programmable SCADA interface Data Management 99% coverage Broadcast pushed on event System)

POINTS

DISCUSSION

2022 Budget Presentation Talking Points

- 1. Electric and Water Revenues were increased by 4.5% based on 2021 Rate increases.
- 2. We raised expenses by 2.75%.
- 3. We raised our Fleet Expenses by 2.75% based on new vehicles and personnel.
- 4. We have budgeted for 6 new positions in 2022.
- 5. We kept our Purchased Power cost about the same but did add some for projected BPA reserves cost adjustment.
- 6. Electric Transmission Expense is primarily Bonneville Power Administration (BPA) but also includes expenses (labor, materials, fleet) associated with maintaining transmission lines.
- 7. Included in Electric Distribution Expense—Maintenance is \$800,000 for tree trimming.
- 8. Included in the Administrative and General expenses is \$150,000 available for raises per RCW 54.16.100.
- 9. Interest on Long-Term Debt is based on the amortization schedules within our loan documents with RUS, USDA Rural Development, and bonds.
- 10. Labor, Benefits, Fleet, and Inventory Expenses are based on historical information
- 11. All expenses are based on actual expenses from June 2020 to May 2021.
- 12. Each Department increased their training budgets by 5% for 2022.
- 13. We have included a 4% COLA increase for Non-Represented Employees and COLAs for Union Employees per their contracts.
- 14. Property tax revenues have been kept at the same level as last year and 100% of the funds will go toward Broadband.
- 15. Electric Construction Projects are based on the previously approved 4-year work plan with Board approved additions.
- 16. Water Construction Projects are based on current needs and our 10-year work plan.
- 17. General Plant capital purchases include building remodel, warehouse improvements, information technology equipment, fleet, broadband, electric tools/personal protection equipment, communications, and engineering costs.
- 18. Principal payments on long-term debt are based on the amortization schedules within our loan documents with RUS, USDA Rural Development, and bonds.
- 19. Added depreciation back into the cash flow as our construction costs should be close to our depreciation rate. We are replenishing our assets at the same rate they are depreciating.
- 20. We still have some LUDs that are paying on assessments which the Treasurer's Office collects and then we pay the bond payments.
- 21. We will be incorporating the 10-year Financial Forecast into the 2022 budget

- 1. The PUD does receive Aid to Construction from Custers installing new services or upgrading their current service.
- 2. The PUD could possibily borrow money to offset the cost of a meter replacement. This would allow the cost to be paid for over a longer period of time and not just by current customers.
- 3. This is a project that we could wait until late Summer or early Fall depending on how actual revenues compare to budget revenues.

2022 Contracted Engineering Capital Costs

Description	Budget Amount Triggers
Contracted Electric Engineering	\$25,000.00 1
Consolidation Study	\$67,500.00 1
Contract Water Engineering	\$30,000.00
Total Contracted Engineering Capital Costs	\$122,500

Triggers:

1. Before contrating outside engineering, we will do as much as we can in-house. Use of outside contractors for engineering will be dependent on projects moving forward.
