CHARGES

Restricted --- To reduce outages caused by overhead construction the PUD is restricting all new overhead construction to a review process where the short-term cost savings for an individual customer does not override the long-term benefit for all PUD customers. The review process will be done by the Engineering Director, Operations Director and the General Manager, their determination is final.

New Electric Service Charges (includes connect and engineering charges)

Overhead (self-contained meter only) Restricted

- 1) Single Phase – From existing overhead transformer: ~~\$1,350~~ **\$3,000**
(includes overhead conductor to customer building, up to 120 feet from existing transformer)
- 2) Single Phase – Install new or upgraded overhead transformer: ~~\$2,100~~ **\$3,750**
(includes overhead conductor to customer building, up to 120 feet from transformer)
- 3) All three-phase work: Requires engineer’s estimate.
